CUSTOMER SUPPORT

The Case dealer: Your professional partner

World-class machinery is just the start with Case Construction Equipment. Consider your Case dealer your partner to find the right options for you to meet your job demands, including maintenance options, financing, attachments and the right machine size.

Case dealers help you maximize machine uptime — and profit. From high-tech tools designed to track equipment and manage a fleet, to service solutions performed right on the job site, Case dealers take the worry out of managing equipment.

Case dealers stand behind the equipment they sell with the strength of factory-trained technicians, a global parts network and outstanding warranties. To get through those high-demand projects, you can rely on your Case dealer for complete purchase, lease and rental solutions.

Your local Case dealer offers flexible financing options, leasing packages and insurance services to protect your investment.

You need more than great equipment. Case dealers deliver.

ONE TOUGH WHEEL LOADER

Case C Series Wheel Loaders give dependable performance a whole new dimension. Designed for lasting durability, these rugged machines withstand the demands of long days in harsh conditions. C Series Wheel Loaders deliver powerful performance and proven reliability, giving you an impressive return on your investment dollar.

The Case 921C Wheel Loader is made to work hard, delivering massive power and versatility to handle your toughest tasks with ease. A selectable dual horsepower feature provides fuel economy at the lower setting and maximum performance when the higher setting is chosen. It delivers superior breakout force, maximum traction and lift capacity, along with a wide selection of attachments for high-production work in almost every job.

Add the Ride Control™ option to the 921C wheel loader and smooth out rough terrain with the touch of a button. This option

allows the loader arms to act like a shock absorber, cushioning the load, minimizing bucket spill and providing a smoother ride. Ride Control also reduces stress to the machine for longer life.

Operator environment

Sit behind the wheel of a Case 921C Wheel Loader and experience a new standard in cab comfort and control. Operators will appreciate a roomier, quieter cab that offers exceptional visibility, easy-effort steering, a comfortable seat and convenient controls.

With all controls comfortably within reach, it's easy to operate a 921C Wheel Loader for fast, efficient cycle times. Concentrate on maneuvers instead of loader operation when using automatic controls for return-to-dig, return-to-travel, float, or bucket height.

Reliable performer

As a true production machine, the durable 921C can withstand the demands of round-the-clock operation in quarries and batch plants. Rugged and reliable, the 921C handles heavy loads and difficult conditions with agility and versatility.

921C WHEEL LOADER QUICK SPECS
